RfP No :- 14875/HUD Dated 1.07.2017

Pre-Bid Clarification

Clarification Reference	Reference to Request for Proposal dated 1 st July 2017	Clarification Explained and Sought by Bidder	Response by Client
-------------------------	---	--	--------------------

Clarification/01	• Part III: Clause 4 – Bullet Point 7 Page 40 of RfP	Commission the network as per the recommended architecture to achieve the Video surveillance requirements. Optimum speed, data transfer capabilities and video frame rates should be ensured by the bidder while implementing the solution. Ensure configuring and fine-tuning of subsystems to achieve overall optimal network performance and highest security.	
------------------	--	---	--

Clarification Sought:

1. All the bidders can come up with their own solution, which will have enormous difference in performance and might not support true and fair evaluation. Please Clarify.

The intention of the Rfp is to find out the least cost technology (capex+ opex) for the desired specified outputs. Therefore, the bidders are free to offer their best possible and economical solution. No change in RfP Conditions.

Clarification Reference	Reference to Request for Proposal dated 1st July 2017	Clarification Explained and Sought by Bidder	Response by Client
		<p>the changes in storage/recording policy, to be evolved upon initial deployment of the system. The system should not limit the amount of storage to be allocated for each connected device. All Aahaar outlets shall have storage for minimum 10 days at maximum resolution. The Recording Servers / System, once configured, shall run independently of the Video Management system and continue to operate in the event even if management system is off-line.</p>	
		<p>Clarification Sought:</p> <ol style="list-style-type: none">1. Web uploading and Centralized Storage needs high speed Network connectivity for uploading videos of Aahaar centers, which is not available with the present infrastructure. So we are suggesting you to go with the viewing option only and storage will be kept for the next phase.2. Which management system is being referred to as going offline? Is it being referred to recording servers at CMU?	<p>The requirement of minimum storage at the CMU is deleted in the RFP. Refer to corrigendum for amended clause.</p>

Clarification Reference	Reference to Request for Proposal dated 1st July 2017	Clarification Explained and Sought by Bidder	Response by Client
Clarification/04	<ul style="list-style-type: none">• Part III: Clause 5 –Page 41 of RfP	<p>Service Level Matrix</p> <p>Clarification Sought:</p> <p>The parameters and time durations mentioned in the service level matrix in page 41 are ambiguous. Since the client will arrange the broadband connectivity, how will it be determined whether the service is down due to failure in broadband connection itself? In addition, the quality of video is highly dependable on the availability of bandwidth.</p> <p>Please clarify on how the penalty will be determined.</p>	<p>Please refer to the reporting requirement mentioned in Part III: Clause 4 Page 41 of RfP.</p>
Clarification/05	<ul style="list-style-type: none">• Annexure II – Data Sheet and Check List- Page 17 of Rfp	<p>Technical Eligibility: The bidder should have experience in installation, commissioning and Operation and Maintenance of at least one project involving IP based video surveillance system (CCTV) with contract value Rs 20 lakhs or more in any Government /Institutional /Commercial /PSU/Autonomous units in India. Only projects done in the last five years as on last date of bid submission. Copy of work order to be enclosed.</p>
